

Hourly Weather Update

Authors: Kurt Pana, Jalen Mobley-Lee, Carson Murray

Problem Statement:

Our users are uninformed about the change in weather throughout the day and feel frustrated due to unexpected weather conditions. Our solution should update users with an hourly forecast.

Who is experiencing the problem?

Anyone who has plans to go outside.

What is the Problem?

There are often unexpected weather changes that people are unaware of.

Where does the problem present itself?

The problem presents itself when there are unexpected changes to the weather.

Why does it matter?

In order to prepare for unexpected weather.
